Re: SD-2 Sand, Reservoir A  
Jeanerette Field  
St. Mary Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **BP AMERICA PRODUCTION COMPANY**, for the calling of a public hearing, after ten (10) days legal notice, to consider evidence relative to the issuance of an Order pertaining to the following matters relating to the SD-2 Sand, Reservoir A, in the Jeanerette Field, St. Mary Parish, Louisiana, for which rules and regulations were established and a single drilling and production unit was created for the exploration for and production of gas and condensate by Office of Conservation Order No. 316, effective September 15, 1955, as supplemented thereto, said unit designated SD-2 RA SUA:

1. To permit the applicant to recomplete, designate and utilize the BP America Production Company – J. R. Roane No. 6 Well as alternate unit well for the SD-2 RA SUA, in the Jeanerette Field, St. Mary Parish, Louisiana, said well to be at the location shown on the plat attached hereto and made a part hereof, in accordance with the spacing provisions of the Office of Conservation Order No. 316 and Statewide Order No. 29-E.
2. To find that this well is necessary to efficiently and economically drain a portion of the reservoir covered by the unit which cannot be so drained by any existing well within such unit.
3. To permit the operator to produce the unit allowable for the existing unit well, the proposed alternate unit well, or both, at its discretion.

4. Except to the extent herein designated, to continue in full force and effect the provisions of Office of Conservation Order No. 316, supplements thereto, and the unit created thereby.

5. To consider such other matters as may be pertinent.

The SD-2 Sand, Reservoir A, in the Jeanerette Field, St. Mary Parish, Louisiana, was previously defined in Office of Conservation Order No. 316, effective September 15, 1955, as redefined by Supplement to Order No. 316, effective January 6, 1964.

The applicant is requesting permission to recomplete, designate and utilize its J. R. Roane No. 6 Well as an alternate unit well for the SD-2 RA SUA. This well will permit efficient and economic recovery of hydrocarbons underlying the unit, will not adversely affect the adjacent offsetting landowners, and is needed to satisfy the market demand for gas and condensate from the field.

Attached hereto and made a part hereof is a plat outlining the applicant's proposal and a list of the names and addresses of the Interested Owners, Represented Parties and Interested Parties to whom a copy of this application is being sent. Pursuant to the Revised Rules of Procedure, such list of parties is being furnished only to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation; however, the list of parties will be provided to any party requesting a copy of it. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Interested Parties and Represented Parties.

Finally, enclosed herewith is our check on behalf of the applicant in the amount of \$700.00 **made payable to the Office of Conservation** representing the required hearing application fee .

Very truly yours,

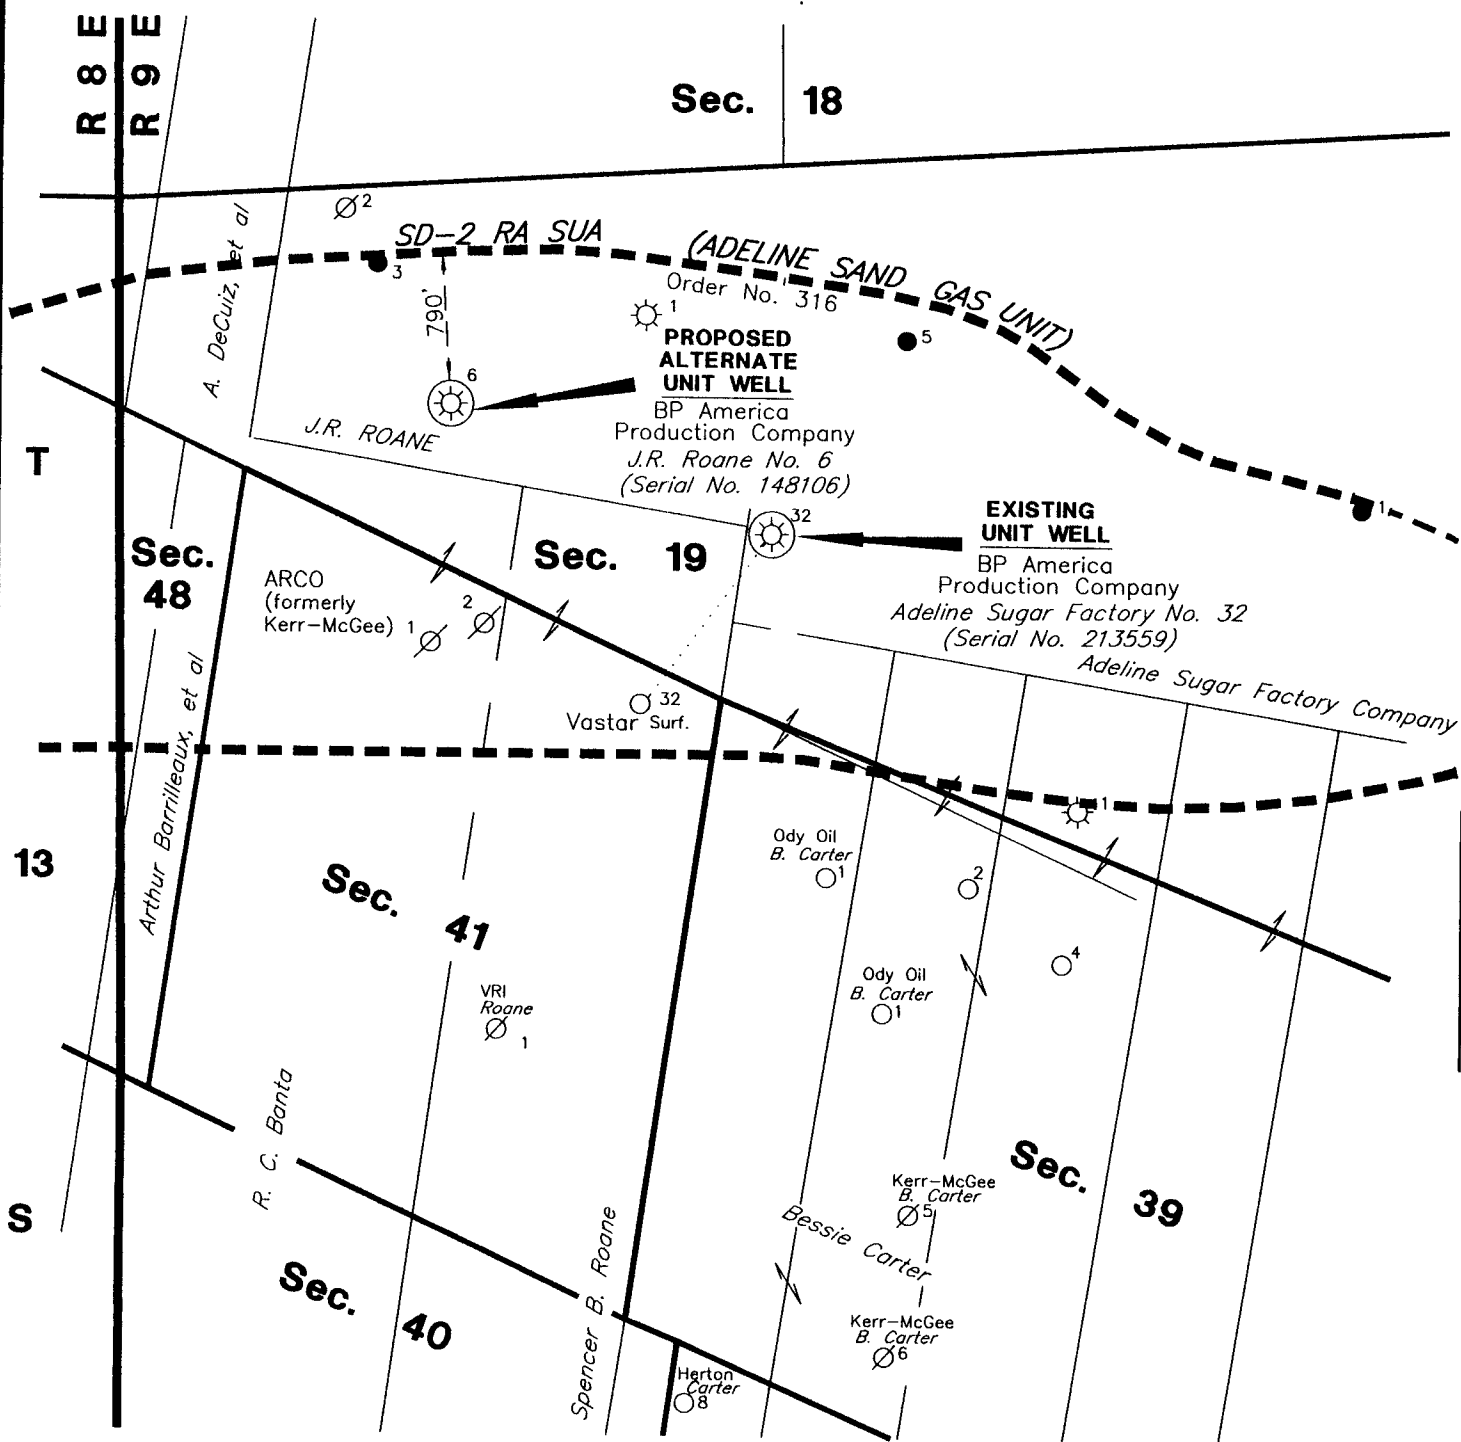

Richard W. Revels, Jr.
